Diesel ECU Repairs

SPECIALISTS IN DIESEL ENGINE MANAGEMENT SYSTEMS

Diesel ECU Vehicle information checklist

Please consider that the time we spend testing and determining the fault condition reflects in the final price so complete and accurate information below can often lead to a smaller bill and a faster turnaround time.

Vehicle Manufacturer	
Vehicle Model	
Registration Number	
Engine Capacity	
Engine Code (If known)	
Year of manufacture	
ECU make (Bosch, Siemens, Delphi, Denso, Marelli etc)	
ECU part number i.e. (Bosch) 0281010300	
Description of vehicle fault – please remember that accurate information frequently leads to less time spent testing and a smaller final bill.	
Diagnostic fault codes present (DTC's)	
Does vehicle start (yes/no)	
Is the fault in any way intermittent (yes/no)	
Your Garage/Business name	
Your business address (for return of the ECU)	
Your name (first name – family name)	
Your phone number (landline)	
Your mobile phone number	
Your order number	
If you wish to provide any further information, please do so here:	

Terms and conditions: ECU's sent to us for evaluation and/or repair are considered sent to us on a verbal contract with the understanding that Tamar Electronics Limited will invoice and request payment for testing and any repair work carried out. Credit account customers must provide an order number and the full name and telephone number of the person placing the order. Non-account customers are advised that payment is required prior to the return of your ECU. Account facilities must be applied for in writing, please request an application form. Our full terms and conditions are also available by request.
